**"OVER 16 YEARS OF EXPERIENCE
IN CONSTRUCTION INDUSTRY....."**

The background of the entire page is a detailed architectural floor plan. It shows a complex layout of rooms, corridors, and stairwells. Various rooms are labeled with numbers in circles (8, 9, 10, 11) and letters (A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z). There are also labels for 'UP' and 'DOWN' indicating stair directions. The plan includes dimensions, door swings, and furniture placement. A red semi-transparent box is overlaid on the right side of the page, containing the Table of Contents.

WHO WE ARE

HY Project Consultants Ltd is a multi disciplinary firm specializing in Architectural, Quantity Surveying, Project Management Landscaping and Interior design practices operating in the United Republic of Tanzania.

The practice was conceived by Arch. Humphrey Z.K.B. Arch (Hons), Msc CEM. Registered architect, M.A.A.T. and Qs Herman Tanguye, B.B. Economics registered Quantity Surveyor, who have extensive experience in all aspects of design, contract management, project management and cost control of a variety of projects in the east Africa region.

The practice offers comprehensive design services from inception, feasibility studies, design development and documentation through to construction until successful completion on all types of works.

Our aim is to provide client with an architectural and Quantity Surveying services of the very

highest quality create by a dedicated team of professionals supported by efficient modern technology and systems.

Our Service is strongly focused upon the corporate, institutional, parastatal and commercial markets with attention to new development, alterations and refurbishment. Client range from individual development companies to banks, parastatal companies and institutions; each commands the attention of all our staff and enjoys direct access to the directors and partners.

We seek work in partnership with our client, to be aware of their aims and requirements and to support each of them in the attainment of their goals.

HY Projects Consultants Ltd provide multi-disciplinary consultancy through the extensive expertise of its partners and its associates. Being a multi-disciplinary consultancy under one roof ensures good team work coordination among members, increase efficiency, saves time and cost, ensures quality and professionalism.

The practice has been structured to facilitate rapid expansion whenever required to deal efficiently with the increasingly complex challenges in design, technology, environmental considerations, and cost control and in order to respond better to the widely varying needs of society.

HY Projects Consultants Ltd has considerable experience in handling a range of large and small projects in Office, housing, commercial, industrial, education, medical, tourism, recreation and financial sectors of a variety of private and parastatal clients.

HY Project Consultants Ltd prides itself in generating quality designs, eco-sensitive and appropriate, cost-effective solutions to challenging sites and client briefs.

HY Projects Consultants Ltd is dedicate to the exploration of new and innovative ideas, methods and processes and the critical analysis and evaluation of architectural, engineering and planning opportunities to provide efficiency, creativity and economy in design.

The practice policy is based on a simple philosophy of maintaining high standards by providing partner lever attention to all projects. This approach allows the practice to generate simple and direct solutions to the many functional, procedural, technological and management issues that arise in the lifetime of a project.

AIMS OF THE PRACTICE

The aims of HY Projects Consultants Ltd include the following:

- To work with the client in a close team effort to ensure a unique, cost effective and appropriate result.
- To understand the client's aspirations and financial aims in the context of the site constraints and socio-economic background of the intended project.
- To effectively co-ordinate the client's consultants and advisers in an integrated and productive team effort to successfully achieve the client's objectives.
- To generate quality designs which respect the client's aspirations, fit the client's budget, respects the sites physical and environmental context and contributes positively to its situation.
- To ensure the incorporation of the art technologies in line with worldwide technological advancement but customized to suit local cultures, local environment and local technological abilities.
